

# ALABAMA COURSE OF STUDY OVERVIEW

- The **K-5** 2019 Alabama Course of Study: Mathematics Overview is professional learning for elementary, special education teachers, and paraprofessionals, as well as elementary math coaches. The 3-hour session focuses on understanding the new 2019 Alabama Course of Study: Mathematics and its conceptual framework: Position Statements, Mathematical Teaching Practices, Student Mathematical Practices and the K-5 Content Areas.
- The **6-12** 2019 Alabama Course of Study: Mathematics Overview is professional development for middle grade, special education, and high school teachers. This 1-day session focuses on understanding the new 2019 Course of Study: Mathematics and its conceptual framework, grade level changes, and focus standards.
